Toronto Humane Society
Trap Neuter Release (TNR) Services

All cats must arrive in traps.

Operational Hours:

Monday – Saturday
Drop-off: 7:00 – 7:30
Pick-Up: 4:00 – 4:30*
**After Mar 1st:*
Option to Pick Up: 7:00 – 7:30am (the following day)

Upcoming Closures:
May 10th
May 23rd
Last updated: 05/12/2016

PLEASE VISIT OUR WEBSITE FOR FUTURE CLOSURES ☺

Please remember we only accept 2 cats per colony caretaker, with a maximum of 4 cats per day on a first come for serve basis.

How our clinic operates:

TNR surgical appointments at the THS Spay/Neuter Clinic will now be **accommodated Monday – Saturday on a first come, first serve basis.** We can provide services for **four TNR felines per surgery day**. We ask that **individual colony caretakers bring no more than two cats at one time.**

Colony caretakers that arrive with cats after we have admitted our maximum number of TNR's are welcome to wait in the lobby of the Spay/Neuter Clinic until all other scheduled surgeries have arrived, at which point we will evaluate our surgery cases to determine if we are able to accommodate the additional TNR's. If space is permitted we may ask that additional ferals spend the night at our clinic in order to be accommodated the next day (Except on Saturdays as we are closed Sundays).

To participate in this program you must be a registered colony caretaker through Community Cats and be prepared to show your certificate of course completion at arrival. Family or friends on behalf of the caretaker are NOT permitted.

Our Spay/Neuter Clinic **drop off times are between 7:00am and 7:30am** Monday to Saturday, please come to the green door at the rear of the building to be admitted. **Pick up is the same day by 4:00pm or 7:00am the following morning.** Please provide a copy of your TNR Certificate upon arrival.

Options for potentially adoptable cats?:

Eligible cats for the TNR service are required to be feral cats which are being returned to their registered colony. Should you have friendly cats in which you wish to rehome, foster, socialize, or adopt out, please note they DO NOT qualify for the free TNR service.

Should you wish to have these adoptable cats sterilized, we require appointments be scheduled ahead of time, no walk-ins will be accepted. Rescue rates are available for approved registered colony caretakers, and these rates are advertised on the back side of this page. We try our best to reserve rescue spots each month in order to provide sooner appointments for our rescue groups.

Should you have young kittens or socialized cats that you wish to surrender, please contact our intake department to schedule a surrender appointment. All cats will require a feline profile to be completed, and mailed/emailed before an appointment can be reserved. Please visit our website at: http://www.torontohumanesociety.com/what-we-do/animal-intake/custodial-surrender for more information.

All cats receive the sterilization procedure (spay/neuter), ear tip, microchip implant, vaccinations, and a flea/deworming treatment (revolution). Should the cat require wound treatment and an injectable antibiotic, we will ask the colony caretaker assist in covering this cost (<$35.00).
